

# MICHAEL LAW

FULL-STACK WEB DEVELOPER

## PROFILE

I am a driven and dedicated individual with a background in and passion for all types of technology. My interest in this industry is what drives me to learn and adapt to how quickly things change. I aspire to be a web developer, not only to make my own ideas come alive, but to be a part of the growth of the industry and the internet as we know it. I bring over a decade of office experience, excel working in groups and individually, and have a drive for personal and professional growth in programming.

## PROJECTS

### Flashers

- A single page web app designed for urban boulderers to find local spots to climb, or flash. This app was a collaboration for our final project.

*Stack:* Node, Express, React, Axios, PostgreSQL, Google Maps API, Auth0.

### LockD

- An easy to use and fun take on a password generator and storage app. This app was a collaboration for our midterm project.

*Stack:* EJS, SCSS, JavaScript, jQuery, NodeJS, BcryptJS, Express, PostgreSQL.

### Scheduler

- Scheduler is a calendar used to book, edit and cancel interviews. It was created as part of the curriculum at Lighthouse Labs.

*Stack:* React, Axios, Classnames, Normalize CSS, Storybook, Jest, Cypress.

## EXPERIENCE

### Owner/Technician

Law Wire - Fergus, Ontario  
June 2022 - Present

- Independently operated company working with established audio visual companies for the installation of full smart home systems and equipment.
- Established upon completion of Web Development course to continue learning of the field, with flexibility of continuing to grow in web development.

### Senior Technician

Station Earth - Fergus, Ontario  
December 2018 - March 2022

- Lead technician in charge of the planning, pre-wiring and installation of all types of technology. From full home ELAN systems and everything that falls under them, including cameras, speakers, touchpanels, tvs, wifi, etc.
- Largely in charge of small groups of technicians, between 1-3 employees depending on the job and requirements.
